MUHAMMAD

TALAL HABSHI

SOFTWARE ENGINEER

PROFILE

I'm a passionate Software Engineer, Full-Stack Developer, and AI/ML Enthusiast who loves turning ideas into impactful solutions. I thrive on blending creativity with technology, building intelligent systems that solve real-world problems. Always curious and eager to learn, I embrace challenges as opportunities to grow and push boundaries. My goal is to innovate, create, and contribute to shaping a smarter, more connected future.

WORK EXPERIENCE

Sybrid Private Limited - A

Lakson Group Company

SUMMER 2024

Full Stack Developer (REACT AND NESTJS)

- Developed a real-time Payment Approval System during my internship, as part of a live project the company was working on.
- Utilized NestJS, PostgreSQL, and React to create an efficient payment processing workflow.
- Recognized for creativity and strong performance in delivering impactful results..
